As a member of this Society you now have the opportunity to share in this work.

This building will stand as one of the mile-stones marking the advance of science and art in this country.

It will be the finest building in the world to be used exclusively as a Numismatic Museum and will contain collections worthy of the building.

Coming to the Society as a gift from *all* of its members, it will mean much more than if it should come as a gift from a few of its members.

Subscriptions should be as prompt and liberal as possible so that there may be no delay in meeting all payments as they come due.

Checks should be made payable to Charles Pryer, Treasurer.
